Mary,

Alex asked that I forward you the Department's Regulated Fill General Permit and Management of Fill Policy. As we all have discussed previously, these documents include provisions related to the beneficial use of residual waste that may contain PCBs. The General Permit was published in the Pa. Bulletin for public comment on October 6, 2018, with a 60 day comment period that ends on December 5, 2018. The PCB language can be found on page 19 of 23. You may access the General Permit through this link:

Also attached is a copy of the draft Management of Fill Policy, which will be published in the Pa Bulletin on November 10, 2018 with a 60-day comment period that ends January 8, 2019. Since the policy will not be published for public comment until November 10, 2018, please do not distribute it outside of your agency prior to that time.

Walt Harner, the director of DEP's Bureau of Waste Management, shared this same information with John Armstead earlier today.

Let me know if you have any questions.
